

Aspen Tng

Systems-oriented product designer specializing in enterprise products, design systems, and AI UX foundations — simplifying complexity into clarity for users.

selected experience

Amazon · UX Designer (enterprise docs management) Seattle, WA · 2024 – Now

- Saved \$1.5M+ annually and cut manual review time by 50% by leading the design and delivery of AI-powered OCR data extraction and validation flows.
- Eliminated 44,000+ hours of manual effort per year by creating a self-service document onboarding experience adopted across HR services.
- Reduced workflow update cycles by 80% (from 5 days to <1 day) by driving the development of an automated configuration workflow for administrators.

Amazon · UX Designer (design system) Seattle, WA · 2022 – 2024

- Scaled visual consistency across Amazon's internal HR tools by creating design tokens, standardizing interaction states, and establishing theming foundations — released in new Figma libraries adopted by 70 teams.
- Improved UX consistency across 50+ products by leading creation and implementation of unified wizard and form interaction guidelines.

Ubicomp Lab · UX Designer Seattle, WA · 2021 – 2022

- Streamlined PCB debugging for electrical engineers by conducting 10 usability studies on an AR workbench and co-authoring data-driven interaction recommendations published in ACM UIST paper.
[paper: <https://dl.acm.org/doi/10.1145/3526113.3545684>]

GovTech, Singapore · Product Designer Singapore · 2020 – 2021

- Launched Singapore's national-scale digital driving license by leading interaction design for official launch, impacting 4+ million citizens in collaboration with Singapore Police Force.
- Reduced approval times for new digital cards by 90% by developing modular design templates, interaction guidelines, and technical specifications.
- Enabled future product scalability by directing cross-functional team to launch new, comprehensive design system (interaction patterns, visual design, information architecture).
- Improved access to digital ID cards for 4+ million users by designing and launching intuitive card carousel feature.

Cargill, Inc. · UX Designer Intern Champaign, IL · 2019 – 2020

- Delivered inventory management solution for company integration by owning project end-to-end: interviewing 7 site managers, leading UX design, and facilitating product owner meetings (Solution launched March 2021).
- Enabled evaluation of product-market fit of concept that connects farmers with agtech startups by designing and developing functional MVP.
